APPMAGIC 2022

Ambient (ALL) Technologies

AppMagic is a “Serverless” company harnessing the immense power of the Google Cloud Platform (GCP) with an amazing 99.99% dependable uptime.

With combined technologies from Google, Adobe and Microsoft we create immersive, engaging and delightful Apps that may be used anywhere!

APPMAGIC 2022

Continuous Delivery

AppMagic Products deploy fast updates in real time to our users wherever they may be.

Customers are always up to date with the very latest our Ambient (ALL) Technology has to offer.

Firebase or WordPress SEO and Advanced Analytics

Firebase and WordPress SEO with the Google Cloud Platform offer fast, continuous and dependable Content Delivery and SEO.

This translates to granular App Analytics both Investors and App Management may share.

APPMAGIC 2022

Responsive

AppMagic products are entirely Responsive.

Designed for all Browsers, Chrome, Firefox, Opera, Safari, Edge and others display as fast, immersive and engaging Web Applications for all systems, platforms and devices.

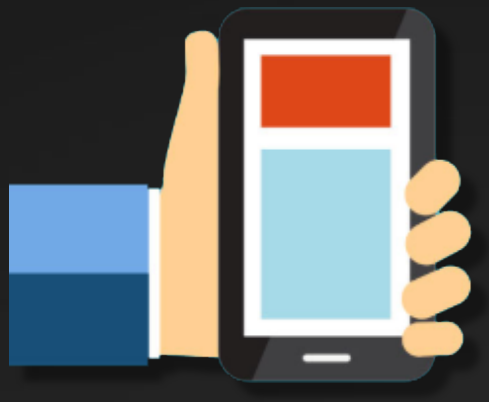
Scalable Vector Graphics

Scalable Vector Graphics known as SVG's are integrated for user interfaces that maintain image quality regardless of device size.

SVG's (and now web-p images) offer advanced sizable graphics for all Mobile, Folding, Tablet, Desktop, Wearable and other emerging devices in today's changing world.

APPMAGIC 2022

Advantages



Many believe Web Apps will replace Native Apps by the end this decade.

AppMagic is well positioned for this coming technology change.
